Who Should Attend:

This session is directed to faculty, nurses, residents/fellows, medical students, advanced practice providers and other health care professionals

Upon the conclusion of this course, participants should be able to:

- Implement best practice cervical cancer screening and management of women with pre-invasive cervical disease.
- Demonstrate understanding of limitations and complications related to diagnostic and treatment procedures for pre-invasive cervical disease, including performing colposcopy, cervical biopsy and LEEP procedures.
- Demonstrate and identify cervical pathology through colposcopy.

**For questions about the topic please contact
Jessica Rodriguez.**
